Bharat Boudh IKS Examination-Student Facilitation & Onboarding Drive – 2026

"WHERE TRADITION MEETS TRANSFORMATION"

Bharat Boudh IKS is a flagship national academic initiative (through Nationwide Examination) launched by Vidya Bharati Uchcha Shiksha Sansthan (VBUSS) to **integrate Bharatiya Knowledge Systems (IKS) into modern higher education**. The project aims to bridge ancient Indian wisdom with contemporary learning by encouraging students to understand, appreciate, and apply India's historical scientific, cultural, and philosophical contributions to modern problem-solving. It is a **transformative educational initiative** aimed to foster cultural rootedness, traditional wisdom, and Bharatiya values while encouraging **modern-day problem-solving through timeless Bharatiya knowledge**.

The **step-by-step registration and dashboard setup process** for an undergraduate or postgraduate student follows these stages:

Step 1: Institutional Sign-Up & Bulk Enrollment

- College Registration:** The student's college or university must first register as an official examination center on the <https://bharatboudhiks.com/>.
- Student List Submission:** The institution collects the student details and submits them. This is done either digitally via the portal dashboard or through an offline Excel roster shared with the central committee.
- Fee Payment:** The exam registration fee of ₹100 per candidate is collected by the college and processed collectively via the portal.

Step 2: Receiving Credentials & Account Activation

- Email Notification:** Once the institution uploads the data, the central system generates individual accounts. Students automatically receive an account activation email containing their default system credentials.
- First-Time Login:** The student goes to the official site <https://bharatboudhiks.com/>. They log in using their temporary credentials.
- Password Security:** Upon the very first login, the student is prompted to change their default password to a secure, personalized password.

Step 3: Complete Student Profile Setup

- Information Verification:** The student must verify their preset details like their full name, active mobile number, and email address.
- Discipline Selection:** The student must explicitly choose their primary test stream—Arts, Science, or Social Sciences—which dictates their primary examination book content.
- Photo Upload:** The student must upload a clear, passport-sized profile photograph. Note: Dashboard access to study materials and test updates remains locked until this photo is uploaded.

Step 4: Accessing Study Materials & Preparation

- Dashboard Unlock:** With the profile completed, the unique student dashboard activates.
- Resource Downloads:** Students can navigate to the syllabus and e-book sections to access the official preparatory text materials curated by Vidya Bharati.

Step 5: Downloading the Admit Card

- Close to the official examination date, the portal publishes hall tickets.
- The student logs into their dashboard and downloads the official Admit Card. This must be printed and brought to the offline examination center along with a valid institutional photo ID.
- If you are a student, check with your college's academic coordinator or IKS department to the offline examination center along with a valid institutional photo ID.

The student must visit **Dr. Dalia Roy, Bharat Boudh IKS Nodal Officer** immediately.
